1. In late May 1958, new plan figures for 1958 and 1959 were suddenly announced at the VEB Stahl- und Walzwerk Brandenburg. The 1958 Plan is to achieve the increase in production by the end of 1958 that was formerly intended to be achieved in 1959. The same is true for the 1959 Plan. Figures for 1960 were not yet available. The announced increases in 1958 and 1959 are:
- 1958: By the end of the year, the steel works is to have reached 10,000 tons more than the former 1958 Plan required; the rolling mill is to have reached 9,800 tons more, and the wire rolling mill, 1,533 tons more. These totals will equal those originally planned for 1959.
- 1959: The plan figures are the same as those originally planned for 1960. These are: rolling mill - 440,000 to 445,000 tons; wire rolling mill - 85,000 tons. Figures for the steel mill were not yet known.

These changes were proposed to all works departments for a vote of approval. They are unanimously approved, as usual.
